

IN THE ISSUE:

- Mass information means for nanotechnologies development
- Nanotechnological stage of scientific and technical development of construction industry
- Nanoprocessors, nanomanipulators, nanocomputers and other unique devices and instruments for modern science
- Scientific and educational center on nanotechnologies in MSUCE
- Activity of State Corporation «Rosnanotech»
- Principles of obtaining super materials of the 21st century
- Patent review

- Use of pulse modes for increasing nanotechnologies efficiency
- Nanoevents in the world
- Method of technical and economic assessment of nanotechnologies efficiency
- Assistance in patent activity
- Series of research literature «New materials and nanotechnologies»
