

INTERNATIONAL SEMINAR ON SUSTAINABILITY, ECONOMICS AND SAFETY (ISSES 2019)

11–12 APRIL 2019, SZCZECIN OSTOJA, POLAND

ABOUT CONFERENCE:

The International Seminar on Sustainability, Economics and Safety with this year's theme of "Safety and Sustainability in Civil Engineering and Nanotechnology" is a 2-day seminar which is organized by the Didactic Group of Economics, Organization and Management in Construction at The Faculty of Civil Engineering and Architecture of West Pomeranian University of Technology, Szczecin in co-operation with Technical University of Berlin (Germany) and National University Lviv Polytechnic from Ukraine.

This international seminar offers its participants the opportunity to engage with academics, business professionals and to exchange ideas through series of talks, discussions and informal gatherings. We bring together different perspectives on global issues from various countries, to foster ideas and practices which can be applied in a global context.

CONFERENCE TOPICS:

The general topics to be covered include:

- Sustainability in civil engineering,
- Sustainable solutions in engineering,
- Nanomaterials in engineering and environment,
- Nanosafety and safety at work,
- Circular economy in construction,
- Economical aspects in engineering sciences.

DEADLINES:

- **Abstract submission** – 15.02.2019
- **Abstract acceptance notification** – 22.02.2019
- **Full paper submission** – 05.03.2019
- **Full paper acceptance notification** – 15.03.2019

CONFERENCE PROCEEDINGS

Accepted, peer-reviewed papers will be included in ISBN-registered proceedings.

Electronic edition «Nanotechnologies in Construction: A Scientific Internet-Journal» provides information support of the I «Safety and Sustainability in Civil Engineering and Nanotechnology» ISSES 2019 and invites researchers and specialists to participate in the seminar.

All information regarding participation at the seminar are available by e-mail: pawel.sikora@zut.edu.pl
