

CONTENT OF THE ISSUES FOR 2014

1

№1/2014

Publisher Information (Editorial Council; Editorial Board; The Editors; Founders; Publisher; Publication Ethics; Contacts; Minimal System Requirements to Access the Edition; Journal Production Schedule)	3
Falikman V.R., Vajner A.Y. Photocatalytic Cementitious Composites containing Mesoporous Titanium Dioxide Nanoparticles	14
BATIMAT, INTERCLIMA+ELEC and IDEO BAIN: integration for success!.....	27
The 3rd All-Russian Conference on Concrete and Reinforced Concrete	30
Fomin N.E., Nizina T.A., Yudin V.A., Kislyakov P.A., Kireev A.A. Analysis of the thermal properties of nanomodified epoxy composite	38
The Laureates of the Awards «Golden Phenix–2013» and «Russian Olympus–2013»	51
Vlasov V.A. Inventions in nanotechnological field provide increased strength and life span of the metal, composite and polymer, metallopolymer structures	68
The Award «Time of Innovations–2013»: The Dreams Come True	91
The International Conference «The City of the 21st Century. Efficient methods to implement, interact with and develop construction industry in the regions»	95
Karpov A.I. Results of research in the area of nanotechnologies and nanomaterials. Part 1	101
On the observance of publishing ethics by the editors of electronic edition «Nanotechnologies in Construction: A Scientific Internet-Journal» and the statement of prevarication absence	114

№2/2014

2

Publisher Information (Editorial Council; Editorial Board; The Editors; Founders; Publisher; Publication Ethics; Contacts; Minimal System Requirements to Access the Edition; Journal Production Schedule)	3
Gusev B.V. The opportunity to publish research results in electronic editions is of great interest for scientific community (Internet-Journal «Nanotechnologies in Construction» is 5 years old!).....	13
The VI International Theoretical and Practical Online-Conference «Application of Nanotechnologies in Construction Industry» (28–29 October 2014)	26
Karpov A.I. Results of research in the area of nanotechnologies and nanomaterials. Part 2	32
The 3rd All-Russian Conference on Concrete and Reinforced Concrete.....	45
Uderbayev S.S. Realization of electromechanical and chemical ways for increasing mineral binder’s activity	53
Muminova S.R. The latest foreign achievements in the area of nanotechnologies and nanomaterials. Part 1	71
Vlasov V.A. Inventions in the nanotechnological area provide improved performance characteristics of different sealing polymer materials used in construction	78
Ivasyshin H.S. Euler and applications of quantum mechanics. Paradox IH. Part 1.....	109
On the observance of publishing ethics by the editors of electronic edition «Nanotechnologies in Construction: A Scientific Internet-Journal» and the statement of prevarication absence.....	121

№3/2014

Publisher Information (Editorial Council; Editorial Board; The Editors; Founders; Publisher; Publication Ethics; Contacts; Minimal System Requirements to Access the Edition; Journal Production Schedule) 3

Korolev E.V., Balakirov I.A., Smirnov V.A. Nanocomposites with thermosetting matrix: structure formation at the interphase boundary 13

Falikman V.R. The Results of the III All-Russian (International) Conference on Concrete and Reinforced Concrete 30

International partnership agreement between RILEM and International Engineering Academy 37

Kosach A.F., Danilov S.V., Gutareva N.A., Korotaev M.A. Influence of the use of nanoscale siliceous cement system on the strength properties of cement stone 42

The VI International Theoretical and Practical Online-Conference «Application of Nanotechnologies in Construction Industry» (28–29 October 2014) 58

Karpov A.I. Results of research in the area of nanotechnologies and nanomaterials. Part 3 64

Vlasov V.A. Nanotechnological inventions considerably improve performance characteristics of concretes, polymers, metals and other materials 77

Laureates of the program «RUSSIAN OLYMPUS» – the most dynamic, reliable and successful organizations 96

Ivasyshin H.S. Euler and applications of quantum mechanics. Paradox IH. Part 2 108

On the observance of publishing ethics by the editors of electronic edition «Nanotechnologies in Construction: A Scientific Internet-Journal» and the statement of prevarication absence 128

4

№4/2014

Publisher Information (Editorial Council; Editorial Board; The Editors; Founders; Publisher; Publication Ethics; Contacts; Minimal System Requirements to Access the Edition; Journal Production Schedule)	3
Chetverik N.P. Dear colleagues! Congratulations on the Builder Day!	13
Urkhanova L.A., Lkhasaranov S.A., Rozina V.Ye., Buyantuev S.L., Bardakhanov S.P. Increased corrosion resistance of basalt reinforced cement compositions with nanosilica	15
Kondakov A.I., Mikhaleva Z.A., Tkachev A.G., Popov A.I., Gorski S.Yu. Effect of surface treatment of carbon nanotubes on mechanical properties of cement composite	31
The VI International Theoretical and Practical Online-Conference «Application of Nanotechnologies in Construction Industry» (28–29 October 2014)	45
Karpov A.I. Results of research in the area of nanotechnologies and nanomaterials. Part 4	51
Muminova S.R. The latest foreign achievements in the area of nanotechnologies and nanomaterials. Part 2	59
Vlasov V.A. Inventions in the nanotechnological area considerably increase wear- and chemical resistance of construction products	66
Korolev E.V., Grishina A.N., Satyukov A. B. Chemical composition of nanomodified composite binder with nano- and micro-sized barium silicate	90
On the observance of publishing ethics by the editors of electronic edition «Nanotechnologies in Construction: A Scientific Internet-Journal» and the statement of prevarication absence	105

5

№5/2014

Publisher Information (Editorial Council; Editorial Board; The Editors; Founders; Publisher; Publication Ethics; Contacts; Minimal System Requirements to Access the Edition; Journal Production Schedule) 3

Tolmachev S.N. Belichenko E.A. Features of the influence of carbonaceous nanoparticles on the rheological properties of cement paste and technological properties of the fine-grained concrete 13

International Congress-Exhibition CompositeBuild: On the Application of Composite Materials in Construction and Market Development Prospects 30

Smirnov V.A., Korolev E.V., Evstigneev A.V. The review of the modeling methods and numerical analysis software for nanotechnology in material science 34

The climber who conquered the construction peaks: *Vladimir Grigorievich Khozin* celebrates double anniversary 60

Interregional Conference «Nanotechnologies – XXI century. Efficient mechanisms of application, interaction and development of nanoindustry in the regions» 63

Karpov A.I. Results of research in the area of nanotechnologies and nanomaterials. Part 5 68

The Reward for the Laureates of the Prizes «GOLDEN PHOENIX–2014», «RUSSIAN CONSTRUCTION OLIMPUS–2014» and «RUSSIAN AGRICULTURAL OLIMPUS–2014» 87

Vlasov V.A. The inventions in nanotechnological area increase efficiency of construction, housing and communal services and adjacent economic fields 93

The best achievements in architectural and constructional design were at the competition held by the National Union of Designers 114

On the observance of publishing ethics by the editors of electronic edition «Nanotechnologies in Construction: A Scientific Internet-Journal» and the statement of prevarication absence 126

EDITOR'S ADDRESS TO THE AUTHORS AND READERS

Gusev B.V. On the development of the electronic edition «NANOTECHNOLOGIES
 IN CONSTRUCTION: A Scientific Internet-Journal» as an international mass media
 in scientific area15

HAPPY NEW YEAR 2015!20

INTERNATIONAL EXPERIENCE

Kudryavtsev P.G., Figovsky O.L. Nanostructured materials, production and application
 in construction27
 DOI: dx.doi.org/10.15828/2075-8545-2014-6-6-27-45

NANOTECHNOLOGIES IN CONSTRUCTION: A Scientific Internet-Journal46

THE RESEARCH RESULTS IN THE AREA OF NANOTECHNOLOGIES AND NANOMATERIALS

Gusev B.V., Petrunin S.Y. Cavitation dispersion of carbon nanotubes and modification
 of cement systems50
 DOI: dx.doi.org/10.15828/2075-8545-2014-6-6-50-57

THE REVIEW OF PATENTS FOR INVENTIONS, UTILITY MODELS, INDUSTRIAL MODELS

Vlasov V.A. The nanotechnological inventions raise competitive ability of the products58
 DOI: dx.doi.org/10.15828/2075-8545-2014-6-6-58-78

INTERNATIONAL EXHIBITIONS

International construction and interior exhibition SubBuild–201579

THE REVIEW OF THE RESULTS OF MASTER, PH.D. AND DOCTORATES RESEARCH IN THE AREA OF NANOTECHNOLOGIES, NANOMATERIALS, HOUSING AND COMMUNAL SERVICES AND JOINT ECONOMIC SPHERES
