

BATIMAT, INTERCLIMA+ELEC AND IDEO BAIN: INTEGRATION FOR SUCCESS!

On the 4–8 November 2013 the largest International Architectural and Construction Exhibition BATIMAT Paris was held in Paris, France. The united exposition BATIMAT–2013 was highly recognized by professionals and it provided the exhibition with the leading international position in this area. 2 526 exhibitors (45% of them are foreign representatives) presented their products at the exhibition which was visited by 353 632 specialists within 5 days.

Information support of BATIMAT–2013 was provided by the top mass media. One of them is Internet-Journal «Nanotechnologies in Construction» which was awarded with the **Certificate of professional edition**. More information about Internet-Journal «Nanotechnologies in Construction» is on the website www.nanobuild.ru.

The next joint session of BATIMAT, INTERCLIMA+ELEC and IDEO BAIN will be held on 2–6 November 2015 in the exhibition center Paris Nord Villepinte.

The editors of the edition invite the participants of the International Architectural and Construction Exhibition BATIMAT–2013 to publish information about their achievements in the journal (further information by email: info@nanobuild.ru) as well as to take part in the BATIMAT–2015.
